

SOCIETY IN THE MUSEUM

A theoretical and practical seminar with
Lorena Sancho Querol from Coimbra University,
5/11/2019 at Gothenburg City Museum.

This seminar proposes to share the experience of “Society in the Museum” Project (SoMus project) partners and their new models of participatory museum management. The models of two partners, which are local museums in Spain and Portugal respectively, will be presented. They take the best practices of cultural participation of society into the daily life of the museum, and vice versa, as a starting point.

The seminar will be divided into a review of the two case studies, followed by a practical session where participants consider the participatory models in place in their own institutions.

PROGRAM

9:30 - 10:30 Review of case studies

10:30 - 10:45 Break

10:45 - 12:00 Practical session

We invite local museum practitioners, as well as academics and doctoral students to participate. Because of limited places available, please confirm your attendance with the organizers before November 1st.
